Register of Designated Properties

The Municipal Heritage Register is a publically accessible list of properties that have been identified as being historically important to the community. It includes designated buildings and can also include non-designated buildings of heritage interest. It is an important tool to help a municipality monitor its cultural heritage resources and plan for their conservation. Every municipality in Ontario, under Section 27 of the *Ontario Heritage Act*, is required to maintain a Municipal Register that lists all formally designated heritage properties.

The Town of New Tecumseth Municipal Heritage Register currently includes six (6) designated properties. All properties have been added with the permission and cooperation of the property owners.

Below is the Town of New Tecumseth Register of Designated Properties.

High House **(Keogh-Stief House)** 7278 - Line 7 Tottenham By-law 86-46 Aug 20, 1986		Built 1865 by Owen Keogh. High House is a “second home” of a pioneer family. It is a rarity to fine all three intact homes of a Canadian farmer. *4324-040-003-07502*
